

LEXHAWK MEDICAL SUMMARIZATION SERVICES

Medical record organisation and summarization services are indispensable services for those who are associated with personal injury, insurance claim settlements and /or litigations related to Workmen compensations arising out of injuries/diseases and ailments or all such conditions claimed to be due to job-related activities.

Medical Records Summarization is just not outline writing and compression exercise. Professional Medical Summarizers take into account the end use of medical record summarization as specified by the clients, as it may pertain to be used for Plaintiffs or Defendants or for use of IME or AMEs or as may be for the purpose of Amicus Jury. In tune with the end use of the summary of medical record, essential pointers are highlighted as may be found in the original medical records provided by the clients in the reflective manner for the purpose of an anticipated pro-deposition or pro-argument manner, by the end user.

Summarization at LexHawk is done by duly trained resources who understand the legal aspects and significance, end use of summary reports by the clients. This facet helps the client get the medical summaries in an argument /deposition pro manner. All such medical facts are seen from records to ensure success of the clients. Our in house medicos and doctors who review and effectively amend these documents as per client requirement determine quality –

Segregating Clinical Records into:

- Medical – Consultations, progress notes, H&P, operative reports, discharge summaries, P&S reports, etc.
- Nursing – I&O, vital signs, medication administration, etc.
- Ancillary – Diagnostic studies, pathology reports, therapy reports, etc.
- Billing – Insurance EOBs, health insurance claim forms, billing statements.

SERVICES

We provide years of expertise and services to support the legal industry. We have highly trained medical experts who can summarize and evaluate medical records as well as provide cost-effective medical record analysis. Our services are endless.

Medical Chronology

A Medical Chronology is a record of medical events in the order of their occurrence. This involves reading through hundreds of pages of medical records to identify, locate, review and interpret relevant information from the medical records. We summarize, highlight legally and medically noteworthy points that are pivotal instruments at various stages of the case discovery process.

Salient features of our Medical Chronology

- Focused, condensed and precise
- Non-biased, fact based and insightful
- Easy-to-read and interpret
- Can be customized to suit your needs
- Missing records are identified and communicated
- Additional reports highlighting specific areas of interest. e.g., Pain charts, Lab reports etc.

Demand Letter

The purpose of the Demand Letter is to present facts about the accident with the intent of persuading the insurance adjuster to provide adequate compensation.

Key elements of our demand letter:

- Summary of facts describing the incident
- Detailed description of injuries, pain and suffering

- Statement of medical treatments and list of medical expenses/medical bills
- Discussion and confirmation of accident liability
- Lost income statements
- Injury settlement demand amount
- We help in framing various sections governing the final settlement demand. Each of the above mentioned elements provides vital support to the Plaintiff's claim.

Medical Synopsis

Medical Synopsis is a concise and informative overview of the claimant's medical history. Attorneys often have a lot of medical records, but lack time and exposure. Attorneys can use the Medical Synopsis we provide to learn what happened to the patient and what the merit of the case is. Finally, you will get an idea of how to proceed with the case, without losing any time on it.

- Our Synopsis will contain:
- Every relevant visit and corresponding dates
- A short narrative of the visit
- Highlights of any major events
- Can be customized to suit your needs

A Synopsis can also be converted to a Summary, if attorneys feel that the case is worthwhile.

A well-prepared medical record summary service saves time by organising medical records in a concise chronological manner facilitating easy assimilation.
